TIMBER PROCUREMENT
INCLUDING FSC PRODUCTS

Timber Procurement Policy

DBR TPP requires that:

- Only timber and wood-derived products originating from an independently verifiable Legal and Sustainable source (which can include from a licensed Forest Law Enforcement, Governance and Trade (FLEGT) partner) will be demanded for use on every project – appropriate documentation will be required to prove it.
- By licensed 'FLEGT partner' is meant a timber-producing country that has signed up to a bilateral Voluntary Partnership Agreement with the European Union concerning the EU's Forest Law Enforcement, Governance and Trade licensing scheme and whose timber and wood-derived products have been licensed under that scheme for export by that country's government.
- Application of the TPP includes certain social criteria in contract conditions, as detailed in Annex D (Model Contract Condition) of this Note.
- Suppliers are required to comply with all applicable legislation, including where appropriate the EUTR.

Scope of application of the policy:

- The TPP is mandatory for all DBR sites.
- The policy applies to all virgin timber and wood-derived products⁵ used on every site including temporary site works and material supplied by suppliers.
- As an alternative to demanding timber and wood-derived products from a Legal and Sustainable source, DBR can demand 'recycled timber'. Documentary evidence and independent verification will also apply to recycled timber and recycled wood-derived products but will focus on the use to which the timber was previously put rather than the forest source.
- Short-rotation coppice is exempt from the requirements of the TPP and falls under agricultural regulation and supervision rather than forestry.

Definition of legal and sustainable:

- UK Government TPP
A definition of what 'legal' and 'sustainable' are for the purpose of the TPP is set out in Definition of Legal and Sustainable (on the CPET website [here⁷](#)).

- As the EUTR came into force on 3rd March 2013, the definition of 'legal', has been amended to reflect the exact definition of 'legally harvested' set out in the EUTR, to ensure consistency of approach.
- EUTR and Public Procurement
Where timber and wood-derived products are covered by the EUTR suppliers and Contracting Authorities must ensure that the obligations of due diligence (where either are 'operators' on the market) and traceability (where either are 'traders' on the market) are met⁸.

The EUTR covers a broad range of timber products. Not included are recycled products. Whilst the product scope omits several other products, it is likely to be extended in 2015.

CPET does not provide advice on compliance with the EUTR. The UK enforcement authority, the National Measurement Office (NMO) can be contacted for further information (visit the NMO website [here](#)⁹).

Annex D Model Contract Condition - Timber and wood-derived products

1 Requirements for Timber

1.1 All Timber and wood-derived products supplied or used by [the Contractor] in performance of [the Contract] (including all Timber and wood-derived products supplied or used by sub-contractors) shall comply with [the Contract Specification].

1.2 In addition to the requirements of clause 1.1 above, all Timber and wood-derived products supplied or used by [the Contractor] in performance of [the Contract] (including all Timber and wood-derived products supplied or used by sub-contractors) shall originate from a forest source where management of the forest has full regard for:

- Identification, documentation, and respect of legal, customary, and traditional tenure and use rights related to the forest.
- Mechanisms for resolving grievances and disputes including those relating to tenure and use rights, to forest management practices and to work conditions; and
- Safeguarding the basic labour, rights and health and safety of forest workers.

2 Requirements for Proof of Timber Origin

2.1 If requested by [the Contracting Authority], and not already provided at the tender evaluation stage, [the Contractor] shall provide to [the Contracting Authority] evidence that the Timber and wood-derived products supplied or used in the performance of [the Contract] complies with the requirements of [the Contract Specification]. If requested by [the Contracting Authority] [the Contractor] shall provide to [the Contracting Authority] evidence that the Timber and wood-derived products supplied or used in the performance of [the Contract] complies with the requirements of the social criteria defined in section 1.2 above.

2.2 [The Contracting Authority] reserves the right at any time during the execution of [the Contract] and for a period of 6 years from final delivery under [the Contract] to require [the Contractor] to produce the evidence required for [the Contracting Authority's] inspection within 14 days of [the Contracting Authority's] written request.

2.3 [The Contractor] shall maintain records of all Timber and wood-derived products delivered to and accepted by [the Contracting Authority]. Such information shall be made available to [the Contracting Authority] if requested, for a period of 6 years from final delivery under [the Contract].

All employees are responsible for working towards the objectives contained within this policy.
Signed on behalf of DBR Ltd

Managing Director 6th January 2026

The certification scheme Forest Stewardship Council (FSC) and Programme for the Endorsement of Forest Certification (PEFC) have been assessed by the Central Point of Expertise on Timber (CPET) and found to ensure compliance with the UK Government's **Legality and Sustainability** criteria. FSC and PEFC are thereby accepted as Category A evidence of ensuring compliance with the Government's timber procurement policy.

When you order and receive FSC or PEFC certified products there are a few things you need to check to ensure that the product is actually certified:

Find the certification number/code

All certified suppliers have a unique certification code/number which you can find on a PDF or hard copy of their certificate or on the delivery notes and invoices. The format should be as follows: TT-COC-1234, BMT-PEFC-23354 or SGS-COC-12244.

Is the certificate authentic?

You can check online: for FSC go to: www.fsc-info.org and for PEFC: <http://register.pefc.cz/search1.asp>. Type in certification number where it says 'certification code/number' and click search. Does the certificate appear if you scroll down?

YES

NO

The certificate may be false – Request clarification from the supplier

Has the certificate been issued to the company selling you the product?

Click 'information'. Check under 'General data'/'More info' that it is your supplier's name and contact details.

YES

NO

Your direct supplier/subcontractor may have provided you with their suppliers certificate. The chain is broken and you need further information to confirm the traceability is intact.

Is it valid and not expired?

Check under 'General data'/'More info' to ensure that the certificate has not been suspended since it was issued. Is the certificate valid?

YES

NO

Do not accept. The certificate has to be valid.

Does the certificate cover the product?

Check under 'Product data'/'Product'. Suppliers may only have part of their production certified.

YES

NO

Do not accept. If the product is not covered, it is not certified.

Remember a certified supplier can still supply non-certified products!

Check that the invoice/delivery note specifies FSC/PEFC under the product description.

If 'YES': You have received timber/wood product from a Legal and Sustainable source!
